Jemseg Grand Lake Watershed Association

We undertake ecosystem education, improvement and protection activities that benefit the Jemseg Grand Lake Watershed community.

New Nouveau Brunswick

Your Environmental Trust Fund at Work

“Nothing is softer or more flexible than water, yet nothing can resist it.”

— Lao Tzu, circa 550 BC

“Water on the other hand is like blood. It's part of a circulatory system or vascular system – a cycle that flows outwards and eventually finds its way back, carrying with it nutrients and other resources that allow for the creation of life.”

— Michael Belmore, Outdoor Canada, Nov. 2019
